Beverage Can (Standard Can Type) This product is made of materials that comply with national food safety standards and mainly consists of three parts: the can body, aluminum easy-open lid, and bottom lid. It features excellent airtightness and light-blocking properties.

After filling and sterilization, the product meets commercial sterility requirements, with a shelf life of over 18 months.

Can	Capacity (ml)	Height of can (mm)	Diameter of can (mm)
113/202/200*307	145	87.50±0.20	52.30±0.15
113/202/200*401	180	103.50±0.20	52.30±0.15
113/202/200*504	240	133.00±0.20	52.30±0.15
113/202/200*552	270	146.50±0.20	52.30±0.15
200/202/200*401	180	103.50±0.20	52.30±0.15
200/202/200*504	240	133.00±0.20	52.30±0.15
206/211/209*309	250	91.50±0.20	65.30±0.15
206/211/209*400	280	102.40±0.20	65.30±0.15
206/211/209*408	310	113.50±0.20	65.30±0.15

As the leading food and beverage package supplier, we supply the full range of high-quality aluminum beverage cans and can lids.

Our factories are equipped with fully automated, imported production lines. Each line can produce up to 3 million cans per day, and all products strictly meet international standards.

Our products are exported to the United States, Canada, Peru, Saudi Arabia, Azerbaijan, South Korea, Russia, the Philippines, Indonesia, Malaysia, Myanmar, Vietnam, etc.

Advanced production line:

American STOLLE
American BELVAC
American PAC
American FLEEDWOOD

Beverage ends are widely used as an important part of beverage cans for juice, coffee, beer, and other soft drinks.

To meet the various needs of different markets, we offer two open options:

RPT (Ring Pull Tab) and SOT (Stay-on Tab)

both of which are more convenient and easy to use and drink experience for consumers.

Our factory's easy open end-aluminum is the perfect ends for your food or beverage of choice.

Whether you need a partial opening or full aperture, Zhuyuan has you covered.

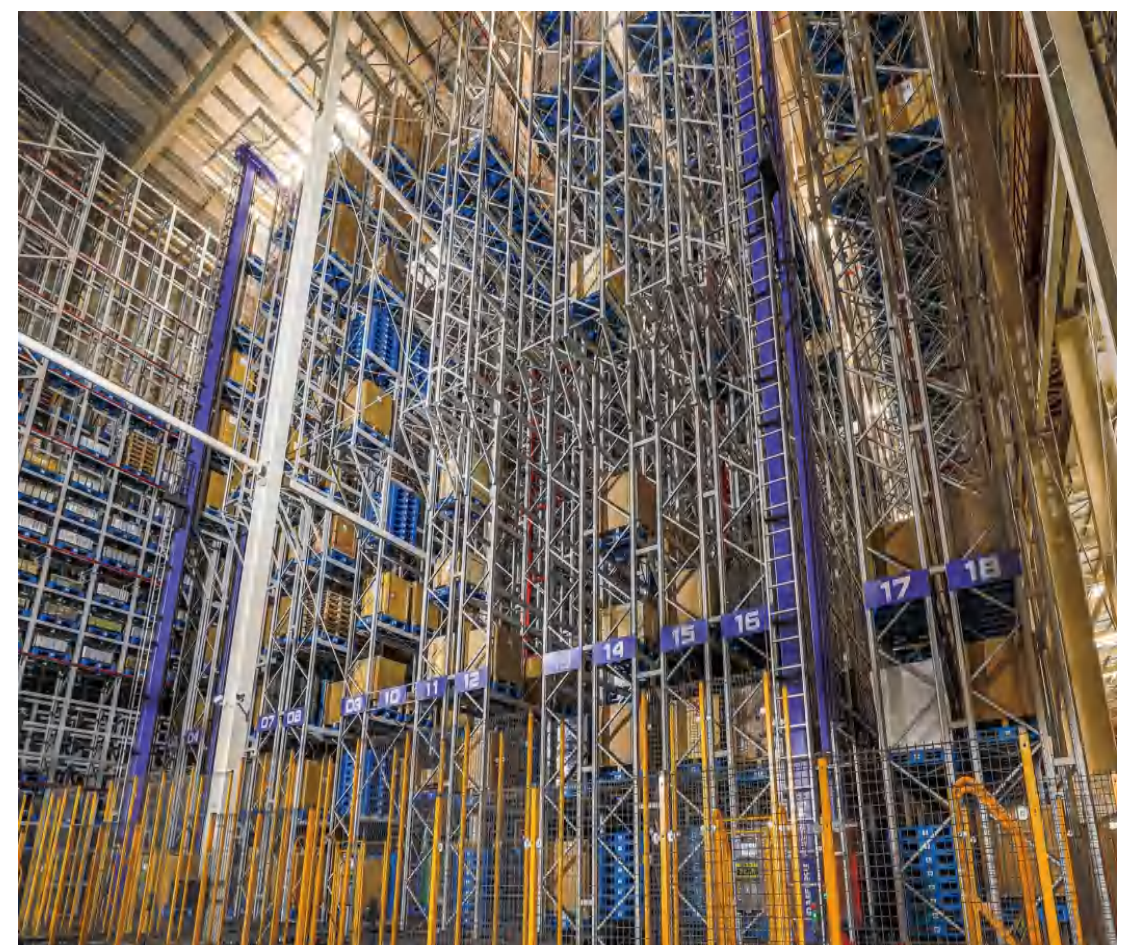

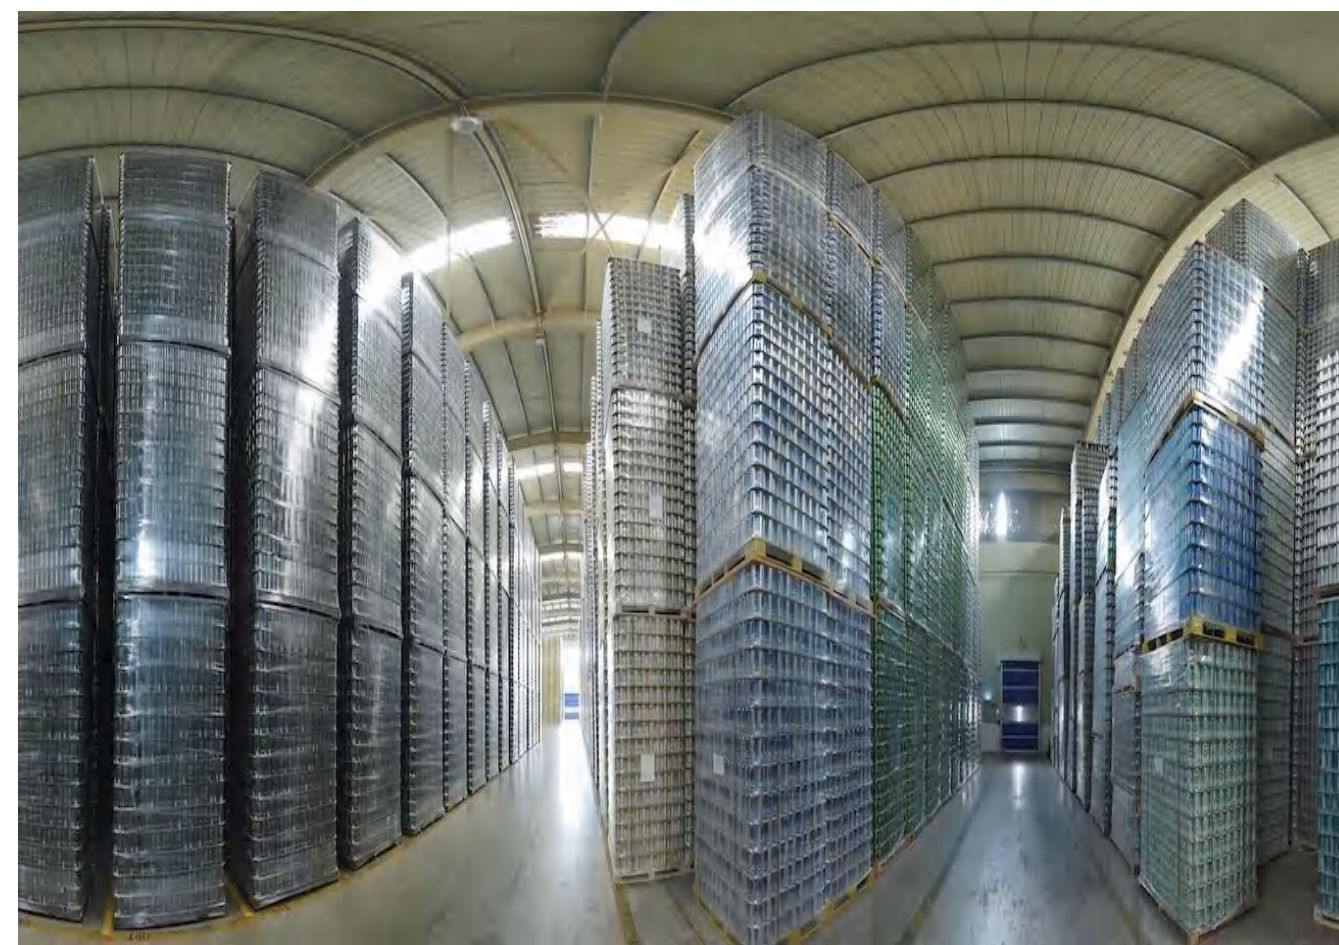

Production Line
